**Vidacare Corporation Appoints Surgical Solutions USA as
Distributor for California Sedation Dentistry Market**

(SAN ANTONIO) – Vidacare Corporation, the manufacturer of the award-winning EZ-IO[®] Vascular Access System, has appointed Surgical Solutions USA as the California distributor for EZ-IO's sedation dentistry market.

The EZ-IO[®] system provides immediate vascular access for delivery of vital fluids and medications and is designed to assist dentists in medical emergencies in the dental office. In the event a patient suffers a cardiac arrest, stroke, anaphylactic shock or an adverse reaction to sedation, the EZ-IO[®] can provide critically needed venous access when peripheral access is not available.

“Our partnership with Surgical Solutions USA as the distributor for the sedation dentistry market in California is one that holds great promise for Vidacare, and we are proud to be affiliated with this company, “ commented Eric Eisbrenner, Vidacare’s IV Sedation Dental Market Manager.

“I am extremely excited about marketing this device to the sedation dentistry market. The EZ-IO[®] is fast, easy to use and an inexpensive insurance policy for the IV sedation dentists,” said Kelvin Yevilov, Sales & Marketing Director for Surgical Solutions USA.

Established in 2001, Vidacare is the leading developer, manufacturer and marketer of advanced intraosseous access technology for multiple diagnostic, monitoring and therapeutic applications. Vidacare’s EZ-IO Vascular Access System is the 2008 Technology Innovation of the Year Gold Award Recipient from the *Wall Street Journal*. Vidacare products are marketed in over 50 countries worldwide. www.vidacare.com.
